Resolution Regarding AAA Recognized Defects in Registered Angus Cattle Consigned to North Carolina Angus Association Sponsored Sale

On Saturday, January 24, 2009 our board of directors voted to accept a resolution effective immediately regarding genetic defects in registered Angus cattle consigned to all North Carolina Angus Association sponsored sales. This resolution was amended at the July 25, 2010 board of directors meeting and again at the October 24, 2010 board meeting. The resolution was again amended at the January 5, 2014 board of directors meeting. The resolution now states:

“As long as a consignment has a valid registration paper and the carrier status is noted in the sale catalog, we will accept those animals on our Association sponsored sales.”

The Down East Sale Committee highly recommends that you only consign cattle that are designated as being **FREE** of any genetic defects or conditions.

If you have questions regarding the resolution, please contact any member of the board of directors, the executive committee or a member of the sale committee.
